PROFILE

Designer and front-end developer with 9+ years of freelance experience spanning web design, graphic design, IT support, and social media. I work AI-native: modern AI tools (Cursor, GPT/Claude-class assistants, generative image and video models) are built into how I design, prototype, and ship — delivering production-quality websites, bots, and brand identities significantly faster than traditional workflows. Recent work includes designing, building, and self-hosting my own portfolio infrastructure end to end (Linux server, nginx, Cloudflare, Telegram-bot backend).

PROFESSIONAL EXPERIENCE

Freelance Web Designer & Developer — Various Clients (Iran & International) 01/2016 – Present

Design and build responsive websites and Telegram bots (HTML, CSS, JavaScript, Python). Since 2023, AI-assisted development is central to my workflow — LLM pair-programming and generative tooling for faster end-to-end delivery, including server setup, deployment, and maintenance.

Freelance Social Media Manager & Designer — Tech Shop, Fashion Brand, Clinics & Laboratory (Germany) 01/2016 – Present

Channel management, content creation, and small campaign planning with reach/engagement analytics; AI-accelerated content production (generative imagery, AI-assisted copywriting).

IT Support Technician — Shiraz Beauty Clinic, Iran 06/2024 – 07/2025

Ran the clinic's IT infrastructure and devices; kept daily operations running smoothly; supported and trained staff on hardware and software.

IT Support Technician — Sakhtar Afagh Yeganeh Tajhiz, Shiraz, Iran 08/2022 – 06/2024

Hardware and software support, network configuration and troubleshooting, installation and maintenance of IT systems, assistance with technical projects.

AI & TECHNICAL SKILLS

AI-native workflows Prompt engineering; AI pair-programming (Cursor, ChatGPT/Claude-class); generative design (image & video); AI-assisted automation and Telegram bots

Web HTML5, CSS3, JavaScript, Python

Design Photoshop, Illustrator, After Effects, Premiere Pro, Fresco, Figma, Blender

IT Hardware/software support, troubleshooting, system maintenance, backups; Linux server basics (nginx, DNS, Cloudflare)

Platforms Instagram, Facebook, LinkedIn, Telegram

EDUCATION

Associate Degree, Computer Engineering (in progress) — Payame Noor University (PNU), Shiraz, Iran 10/2021 – Present

Vocational Diploma (Secondary Level II), Computer Graphics — Shiraz, Iran 09/2018 – 06/2021

LANGUAGES & OTHER

Languages Persian (native) · English (C1, fluent) · German (B1) · Arabic, Dari, Tajik (basic)

Driver's license Class B
